Priority will be given to programmes and projects aimed at improving the wellbeing of the community especially in production and marketing of locally produced products so as to stimulate economic growth and employment creation.

E. THE SPECIFIC GUIDELINES

a) Medium Term Development Strategy

(9) The priorities outlined in the Medium-Term Plan of Kenya Vision 2030 and the County Integrated Development Plan will guide the development of sector priorities, policies, plans and monitoring and evaluation processes for FY 2023/24 - 2025/26 County MTEF budget.

(10) When preparing the budget proposals, County government entities are expected to focus on the County priorities contained in the Annual Development Plan 2023/2024. County government entities should ensure that budget proposals give priority to the following:

- a). Programmes/projects that address the county priorities as desired by citizenry and captured through public participation notes.

- v. Coordinate activities leading to the development of County entity reports and indicative County Budget proposals.

b) Timeframe

(12) Accounting Officers are required to strictly adhere to the timelines provided in the Budget Calendar in order to ensure timely preparation, approval and implementation of the budget. The Budget Calendar which is provided in Annex I outlines the timelines for the budget process in accordance to the requirements of the Public Finance Management Act, 2012.

c) Performance Review

(13) Performance evaluation is the process of analyzing and assessing the extent to which a programme achieves the identified needs or policy objectives. With the adoption of Programme Based Budgeting, Accounting Officers will be required to report on both financial and non-financial programme performance. Performance evaluations will focus on the progress being made towards the achievement of programme outcomes.

(14) Programme performance review is essential in establishing and determining the performance of the previous budgets and setting targets for the next Medium-Term Budgets. It entails undertaking a detailed appraisal of previous budget allocations, disbursement of funds and outcomes/outputs achieved.

(15) Performance review is a critical factor in successful programme budgeting as programmes require constant refinements. It helps in managing the realization of the government's strategic and policy priorities, it also promotes accountability within the Government entities. The review will focus on the efficiency and effectiveness of programme expenditure and whether spending is directed to the highest priorities. The lessons learnt should be used as basis of making decisions in the coming years.

(16) The programme performance expenditure review process will continue to be a basis for determining MTEF budgetary allocations at the County. A detailed analysis of previously funded programmes is done to determine whether value for money has been realized and assess impact of the programmes in terms of addressing the County goal of improving citizen livelihood. This is expected to contribute towards an efficient and effective way of allocating resources towards the realization of the goals encapsulated in the County Integrated Development Plan III (CIDP III).

(17) In preparing the Programme Performance Review, all the County entities through respective Accounting Officers must indicate both financial and non-financial performance against the targets related to each of the programmes/Sub-programme. The report should also provide implementation details, and progress of all projects within a programme.

(18) The Programme Performance Reviews report will be the Key document in determining the resources to be allocated to the sector and subsequently the allocation of resources to sub-sectors therein.

d. Sector Working Groups

(19) Sector Working Groups' (SWG's) shall be responsible for formulating sector budget proposals and developing sectoral policies. SWG's are expected to ensure

that proposed programmes and projects are in line with the objectives of County Integrated Development Plan III.

(20) Accounting Officers are reminded that the Sector Working Groups are the main avenue for bidding for resources. Departments are therefore required to fully participate in the relevant Sector and bid for resources within the available ceilings.

e) Programme Based Budgeting (PBB)

(21) The submission of the budget to the County Assembly and its subsequent approval shall be programme based in accordance with Section 12 of the Second Schedule of the Public Finance Management Act (PFMA) 2012. Departments shall be required to prepare their budget estimates in the programme-based budget (PBB) format. The PBB shall be prepared and submitted to the County Treasury by the 4th of April 2023. **The standard format for the preparation and presentation of the Programme Based Budget is as indicated in Annex V.**

(22) In the preparation of the Programme based budgets, departments are expected to define programmes with clear objectives and link those programmes to specific output, programme indicators and targets.

(23) Departments will normally have more than one programme. To cater for common services and administrative costs which cannot be attributed to only programme, an additional programme known as General Administration, Planning and support services must be added. Such a programme would cater for salaries, general administration, ICT services, planning services, human resource management which are not programme specific.

f) IFMIS Plan to Budget System and Standard Chart of Accounts

(24) The County Government will fully implement all modules of IFMIS financial system. All accounting officers should note that no transactions will be processed unless they are captured in the system. The budget will be prepared in the IFMIS system to;

- (ii) Ensure uniformity in accounting practice throughout government;
- (iii) Facilitate performance accounting by aggregation of costs on the basis of cost centers, programmes and functions of government;

g) Annual Work, Cash Procurement Plans

(25) Annual Work, Cash and Procurement Plans are essential instruments for timely implementation of planned programmes. To ensure that departments commence implementation of the planned activities with effect from 1st July 2022, and avoid carry overs to the ensuing Financial Year, Accounting Officers should have by now finalized and submitted their Annual Work plans, Cash and Procurement Plans, to the County Treasury with a copy to the Office of the Governor. These documents should have personal signature of the Accounting/Chief Officer after being approved by the respective County Executive Member.

h) Prioritization and Allocation of Resources

(26) The County government will continue with its policy of expenditure prioritization with a view to funding core services, ensuring equity and minimizing costs through the elimination of duplication and inefficiencies and geared towards achieving the transformative development agenda.

(27) The following criteria will serve as a guide for allocating resources;

- The findings of Programme Performance Review for the on-going programmes

- Linkage of the programme with the objectives of the County Integrated Development Plan III and the 2023/24 Annual Development Plan.
- Linkage of the programme to the Governor’s manifesto
- Degree to which a programme addresses core poverty interventions
- Degree to which the programme is addressing the core mandate of the Department
- Expected outputs and outcomes from a programme
- Linkage of a programme with other Programmes
- Cost effectiveness and sustainability of the programme; and
- Immediate response to the requirements and furtherance of the implementation of the Constitution.

(28) Based on the broad guidelines, each SWG is expected to document the criteria for resource allocation and prioritize programmes based on the following;

- Analysis of the base line expenditure and excluding all the 'one-off' expenditure for the previous years;
- Identification of activities of low priority in order to realize savings that should be directed to high priority programmes;
- Allocation of resources to projects that have been fully processed and approved by Project Committee (i.e. feasibility study done, with detailed designs, necessary approvals, and land secured). The SWGs should also pay attention to the estimated requirements for each of the stages of the project cycle;
- Requirement for innovation/inventions to ensure efficiency savings in budgets through reduction of operating costs and elimination of non-core service delivery activities;
- Detailed explanation for rescheduling of projects which should include savings and financial implications;
- Financing of Boards and Committees domiciled within the respective County Departments.

i) Public participation.

(29) County Government Act section 115 (1) provides that public participation in the County planning processes shall be mandatory and be facilitated through provision to the public of clear and unambiguous information on any matter under consideration in the planning process, including;

- Clear strategic environmental assessments;
- Clear environmental impact assessment reports;
- Expected development outcomes; and
- Development options and their cost implications.

(30) Public participation and involvement of other stakeholders in the MTEF budget process is important and a Constitutional requirement. County government entities are required to identify and involve the stakeholders throughout the budget preparation process, and Information of their involvement documented for reference purposes.

F) CONCLUSION

(31) Finally, Accounting Officers are required to ensure strict adherence to these guidelines and to bring the contents of this circular to the attention of all officers working under them.
